

MD Clinical Researcher (G4) at the Regulació de la microcirculació hepàtica en la cirrosi i malalties vasculars Hepàtiques group

Code: FU-43/2025

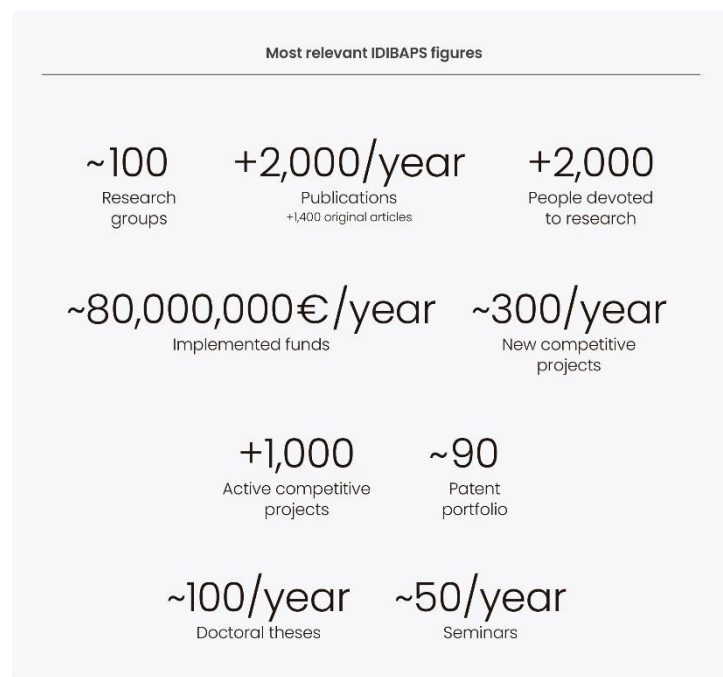

About the institution

The Barcelona Clinical Research Foundation-August Pi i Sunyer Biomedical Research Institute (IDIBAPS) is a biomedical research centre of excellence, located on the Barcelona Clinic Campus and with a clear international focus.

The IDIBAPS research community includes over 2,000 professionals and a hundred multidisciplinary groups that carry out high-impact translational research aimed at addressing biological and clinical questions relevant to human health, as evidenced by the more than 1,500 original articles published each year that make the institution one of the main biomedical research centres in Spain.

The Clínic Campus offers a high-level research and innovation environment, which includes the Hospital Clínic of Barcelona, a referral hospital committed to care, research and teaching, which covers practically all medical and surgical specialties, plus the University of Barcelona's Faculty of Medicine and Health Sciences. The latter dates from 1843 and is today one of the most prestigious health sciences faculties in Spain and worldwide.

Since 2015, IDIBAPS has had [HR Excellence in Research](#) accreditation from the European Commission. It is a CERCA centre and is accredited as a Health Research Institute by the Carlos III Health Institute (ISCIII).

Job description

Joining the Hepatic Hemodynamics section/group of hepatic vascular diseases and portal hypertension, responsibilities include:

- Collaborating with Dr. García-Pagán on the development of WP1 (training and education) in the multi-annual support of the ERN-Rare Liver. This involves designing and developing educational activities for professionals and patients related to various rare hepatic diseases, liaising with other members of ERN-Rare Liver and the coordinating unit in Hamburg.
- Learning and assisting in procedures such as hepatic catheterizations, transjugular liver biopsies, and TIPS.
- Daily review of studies and active patient issues in the section, shared with other unit members.
- Assisting and selecting cases for weekly multidisciplinary sessions on complex portal hypertension and hepatic vascular diseases (shared task).
- Assisting and selecting cases for monthly pathological anatomy sessions for review of liver biopsies performed in the section (shared task).
- Collecting clinical and hemodynamic data during procedures, analysing results, and preparing clinical reports.
- Close collaboration and potential leadership in research projects within the group.

Desired Skills:

- Ability to work in a team and under pressure in a dynamic hospital environment.
- Strong communication skills and ability to provide technical and educational support to other medical professionals.

We Offer:

- Opportunity to join a leading team in the field of Hepatic Hemodynamics.
- Continuous professional development and training opportunities in advanced techniques.
- Collaborative and multidisciplinary environment fostering innovation and medical advancement.

Required qualifications

- Degree in Medicine and Surgery in Spain or equivalent, recognized by the Ministry of Education of Spain.
- Preferred Gastroenterology or Internal Medicine.

Experience and knowledge

- We are seeking a Medical Doctor motivated to expand their knowledge in clinical research in hepatology, particularly in complex hepatic vascular diseases and in the evaluation, diagnosis, and treatment of portal hypertension and its complications to join our team.

IDIBAPS offers

- **Type of contract:** Indefinite contract for scientific-technical activities.
- **Working hours:** Full time (37.5 hours / week).
- **Line of research:** Enfermedades vasculares Hepáticas y Evaluación y tratamiento de la hipertensión portal
- **Project:** ERN-RARE-LIVER Project
- **Funder and official project code:** Universitätsklinikum Hamburg- Eppendorf Rechnungssachbearbeitung - 11145-24 FRCB
- **Incorporation into IDIBAPS:** A research centre of excellence in the city of Barcelona. Excellent research results and competitive project grant awards, both national and international.
- Long-life training offered by the institute.
- **Working conditions:** Holiday entitlement of 22 days + 6 days for personal affairs, flexible working hours and flexible remuneration (health insurance, transport, meal vouchers, training).
- **The chance to form part of a dynamic work environment:** We are a team with a wealth of experience that jointly evaluates ideas and strategies and promotes a healthy work-life balance.

Applications

- **Presentation letter:** explicitly mentioning the call reference and explaining the candidate's personal reasons for applying.
- **Curriculum Vitae:** including a list of publications, where applicable.
- **Documentation accrediting** the credentials set out and the required qualifications.
- **Obligatory:** the duly signed Authorisation relating to EU Regulation 2016/679 on the protection of personal data (*attached document, page 5*) must be attached to the application.

Submission and deadline

- Candidates shall submit their applications, indicating the call reference for the position for which they are applying, by email to the address: FCRBRRHH@recerca.clinic.cat
- **Deadline:** From the publication of this call until 10/03/2025

The employment contract will be in accordance with the provisions of Legislative Decree 1/1995, of 24 March, approving the text of the Workers' Statute Law, of Law 14/2011, of 1 June, on science, technology and innovation in accordance with the provisions of Art. 2 of Royal Decree 2720/98, of 18 December (BOE of 8 January 1999), Law 12/2001, of 9 July (BOE of 10 July) and concordant provisions.

The principle of equal treatment between men and women fundamental, in accordance with Article 14 of the Spanish Constitution, the European Community Directive of 9 February 1976,

and the provisions of the Agreement of the Council of Ministers of 4 March 2005, approving the Plan for Gender Equality in the General State Administration.

The universal accessibility of people with disabilities is fundamental according to section 2 of Article 1 of Law 51/2003, of 2 December, on equal opportunities, and 5% of vacancies are reserved as long as candidates pass the selection processes and accredit their disability and compatibility with the tasks to be carried out, so that we progressively reach 2% of the total workforce.

The gross annual remuneration relating to the position that is the subject of this call will be established based on each candidate's experience and aptitudes.
