

R1-Predocctoral Researcher (G1) at the Myeloma, amyloidosis, macroglobulinemia and other gammopathias group

Code: FU-78/2025

About the institution

The Barcelona Clinical Research Foundation-August Pi i Sunyer Biomedical Research Institute (IDIBAPS) is a biomedical research centre of excellence, located on the Barcelona Clinic Campus and with a clear international focus.

The IDIBAPS research community includes over 2,000 professionals and a hundred multidisciplinary groups that carry out high-impact translational research aimed at addressing biological and clinical questions relevant to human health, as evidenced by the more than 1,500 original articles published each year that make the institution one of the main biomedical research centres in Spain.

The Clínic Campus offers a high-level research and innovation environment, which includes the Hospital Clínic of Barcelona, a referral hospital committed to care, research and teaching, which covers practically all medical and surgical specialties, plus the University of Barcelona's Faculty of Medicine and Health Sciences. The latter dates from 1843 and is today one of the most prestigious health sciences faculties in Spain and worldwide.

Since 2015, IDIBAPS has had [HR Excellence in Research](#) accreditation from the European Commission. It is a CERCA centre and is accredited as a Health Research Institute by the Carlos III Health Institute (ISCIII).

Job description

- The candidate will work as a researcher within the immunotherapy team contributing to the CART cells development for the treatment of haematological neoplasms. It will contribute mainly with ideas and innovation to the development of the research, experimental activity in vivo and in vitro, generation of results, scientific publications and presentations, technical support with experimental animals and participation to the activities of the research unit.
- **Specific tasks:**
- Implementation of existing projects in the immunotherapy area of research and creation of sub-projects related to the immunotherapy's haematological neoplasms, mainly multiple myeloma. Continuing bibliographical updating on the subject
- Conducting in vivo experiments on NSG mice
- At laboratory level (in vitro): ELISA, cell cultures, flow cytometry, functional studies, basic and advanced molecular biology techniques, virus production.
- Writing new projects and publications, presentation of results in national and international events
- The candidate must apply to the doctoral programme and provide proof of the ongoing process.

Required qualifications

- Bachelor's degree in biology, biotechnology or similar.
- Master's degree in Immunology, Biomedicine or similar.

Experience and knowledge

- Minimum of 1 year experience
- Experience in advanced research in Immunology or related areas
- Scientific publications in Immunology or related areas
- Experience required in the management of animal experiments on mice
- Collection of images of experimental animals
- Basic and advanced skills to perform in vitro immunology and molecular biology techniques
- Previous professional experiences in another institution outside Spain will be valued positively
- It is a reason for exclusion if the candidate selected to fill in the position is registered or at least in the process of acceptance to a doctoral program at the time of being hired.
- Catalan, Spanish and Inglés (minimum B2)

IDIBAPS offers

- **Type of contract:** Temporary Predoctoral contract.
- **Working hours:** Full time (37.5 hours / week).
- **Line of research:** CAR-T cells against BCMA in multiple myeloma: prognostic factors related to their activity and development of a new generation of chimeric receptors and Extramedullary involvement in multiple myeloma.
- **Project:** TACKLING MYELOMA RELAPSES WITH ADVANCED ENGINEERING STRATEGIES TO IMPROVE THE EFFICACY AND PERSISTENCE OF CAR T-CELL THERAPY
- **Funder and official project code:** FUNDACION CRIS DE INVESTIGACION PARA VENCER EL CANCER - TRANSPHYSTALENT_23_6
- **Incorporation into IDIBAPS:** A research centre of excellence in the city of Barcelona. Excellent research results and competitive project grant awards, both national and international.
- Long-life training offered by the institute.
- **Working conditions:** Holiday entitlement of 22 days + 6 days for personal affairs, flexible working hours and flexible remuneration (health insurance, transport, meal vouchers, training).
- **The chance to form part of a dynamic work environment:** We are a team with a wealth of experience that jointly evaluates ideas and strategies and promotes a healthy work-life balance.

Applications

- **Presentation letter:** explicitly mentioning the call reference and explaining the candidate's personal reasons for applying.
- **Curriculum Vitae:** including a list of publications, where applicable.
- **Documentation accrediting** the credentials set out and the required qualifications.
- **Obligatory:** the duly signed Authorisation relating to EU Regulation 2016/679 on the protection of personal data (*attached document, page 5*) must be attached to the application.

Submission and deadline

- Candidates shall submit their applications, indicating the call reference for the position for which they are applying, by email to the address: FCRBRRHH@recerca.clinic.cat
- **Deadline:** From the publication of this call until 03/30/2025

The employment contract will be in accordance with the provisions of Legislative Decree 1/1995, of 24 March, approving the text of the Workers' Statute Law, of Law 14/2011, of 1 June, on science, technology and innovation in accordance with the provisions of Art. 2 of Royal Decree 2720/98, of 18 December (BOE of 8 January 1999), Law 12/2001, of 9 July (BOE of 10 July) and concordant provisions.

The principle of equal treatment between men and women fundamental, in accordance with Article 14 of the Spanish Constitution, the European Community Directive of 9 February 1976, and the provisions of the Agreement of the Council of Ministers of 4 March 2005, approving the Plan for Gender Equality in the General State Administration.

The universal accessibility of people with disabilities is fundamental according to section 2 of Article 1 of Law 51/2003, of 2 December, on equal opportunities, and 5% of vacancies are reserved as long as candidates pass the selection processes and accredit their disability and compatibility with the tasks to be carried out, so that we progressively reach 2% of the total workforce.

The gross annual remuneration relating to the position that is the subject of this call will be established based on each candidate's experience and aptitudes.
