About IDIBAPS

The **Institut d'Investigacions Biomèdiques August Pi i Sunyer (IDIBAPS)** is a biomedical research institute of excellence. It combines clinical and basic research to accelerate the translation of knowledge to the benefit of the patients.

Founded in 1996, it is a public consortium formed by the Generalitat de Catalunya, Hospital Clínic de Barcelona, Faculty of Medicine and Health Sciences of the Universitat de Barcelona and, as an associated center, the CSIC's Barcelona Biomedical Research Institute.

The research activities of IDIBAPS are structured into 5 areas. Additionally, 3 transversal groups perform research in "primary care", "nursing" and "pharmacology and clinical trials".
